COMMON ERRORS

Logo Colors: Do not change or alter the logo's colors.

Logo Elements: Do not alter the logos elements, icons, or text.

Logo Shape: Do not reshape or distort the logo.

Logo Effects: Do not add effects, such as drop shadows or textures to the logo.

COMMON ERRORS

Logo Spacing: Spacing around the logo is critical to maintaining clear brand visibility. Use the E in the logotype to ensure clear and proper spacing around the logo.

Color Backgrounds: Use colored backgrounds that have a high-contrast with the logo to ensure it doesn't "fade" into the background of a color with too-similar brightness or saturation.

Photo Backgrounds: Use photo backgrounds that aren't too busy for maximum visibility. If the photo you want to use doesn't meet these requirements, consider a color overlay that lightens, re-colors or fades the photo so that it maintains a high-contrast with the logo.
